MOTTO

Always learning,
always growing.

TECHNOLOGY SKILLS

Strong

- JavaScript
- React
- Express.js
- Mongoose.js
- MongoDB
- HTML5
- CSS
- Git
- Node.js
- Npm

Experienced

- Python
- Django
- PostgreSQL
- Bootstrap
- Handlebars
- jQuery
- JSON
- Heroku

LANGUAGE SKILLS

Mandarin: Advanced

Spanish: Intermediate

EDUCATION

Certificate of Completion, Software Engineering Immersive

General Assembly
May 2020 - August 2020

Related Math Courses, Calculus I, II, III, Probability

Montclair State University
June 2018 - December 2019

Master of Arts in Teaching, Art Education

Montclair State University
May 2012 - January 2015

Bachelor of Fine Arts, Graphic Design and Painting, Minor in Economics

Rutgers State University
September 2008 - May 2012

SOFTWARE ENGINEERING PROJECTS

Pictoramica | <https://github.com/SitBackN-React/Pictoramica-Client>

Team project full-stack application that provides users the platform to keep a blog, post images, and/or sell items

- Integrated AWS S3 to store images
- Built like functionality to allow users to like images
- Created cart feature to add items for checkout payment
- Implemented mock-up designs using React Bootstrap, JSX, and Flexbox
- Structured and organized images and blogs layouts with pagination design
- Initiated and managed MVP progress tracker to ensure each feature has been completed

My Personal Jungle Garden | <https://github.com/huangc909/my-personal-jungle-garden-client>

An application that helps users track their plants' conditions over time

- Incorporated a second Mongoose subdocument to allow users to record log entries
- Built responsive front-end with jQuery that utilizes Ajax to connect with the back-end

Oasis Spaces | <https://github.com/SitBackN-React/oasis-spaces>

Team project application that provides users the space to keep all of their lists in one spot

- Collaborated with teammates to build a Mongoose subdocument back-end server
- Built a fully responsive website with a CRUD API on two resources: lists and items

The BookWorm Spot | https://github.com/huangc909/the_bookworm_spot

An application that motivates users to read by tracking the books they have read, wishlisting books, and seeing what other people are reading

- Created an API using Django and Python to store users' reading history and wishlisted books
- Leveraged React Hooks to display a user's reading and wishlist history on a public feed

UNRELATED WORK EXPERIENCE

Art Teacher | 2015 - 2020 | Passaic Public Schools

- Enriched over 600 students' art knowledge, appreciation, and skills through numerous hands-on projects every year
- Developed and planned in-depth, rigorous, and creative lessons for Grades K-6 and ASD classes that adhered to the NJ State Standards and the district curriculum
- Collaborated with teachers, mentors, and administrators during school events to promote fundraising for student events
- Led professional development discussions concerning teaching strategies, analyzing individual experiences, and sharing feedback and ideas
- Created and fostered my school's Art Club to inspire students to further explore their artistic journeys which cumulated in annual Art Club exhibitions
- Orchestrated student involvement in student artwork showcases and set designs for Winter/Spring Concerts and assemblies
